FRONTEND WEB DEVELOPER | CIVIL ENGINEER

PROFILE

Junior Frontend Web Developer with hands-on experience in creating responsive and user-friendly web interfaces and Civil Engineering . Skilled in HTML, CSS, JavaScript, Astro JS, Next JS, and React JS with some minor experience in backend API development using Node.js, Express, and MongoDB. Leveraging strong problem-solving abilities and analytical skills from a civil engineering background to deliver efficient and innovative web solutions.

TECHNICAL SKILLS

- Frontend: HTML5, CSS3, JavaScript , React JS, Next JS, Tailwind CSS, Astro JS, TypeScript
- Tools & Others: Git, GitHub, Responsive Web Design, REST APIs
- Civil Engineering: AutoCAD, Prota Structure, Microsoft Office Suite

WORK EXPERIENCE

- **Portfolio Websites**: Built responsive personal portfolio websites showcasing web development projects and skills. Optimized for fast loading and mobile responsiveness using React JS.
- **E-commerce Store (GUI BEAUTY)**: Developed the responsive front-end interface for a full-stack e-commerce platform using Next.js, React, and Chakra UI, featuring dynamic product listings, category filtering, and cart/checkout flows. Collaborated closely with the backend engineer to integrate MedusaJS APIs across the platform. https://www.guibeauty.com/en

- **E-commerce Store** : Developed a responsive e-commerce store interface with product listings and cart UI, and smooth navigation using Astro JS web framework . https://dummy-portfolio-ecommerce.netlify.app/]

- **Blog Website**: Created a modern blog interface with categories, post previews, and interactive design using Next JS, Tailwind CSS, and TypeScript. https://bloggedapp.vercel.app/

- **Blog API** : Developed a RESTful API with CRUD operations and authentication using Node.js, Express, and MongoDB.

- **Ticket Management Web Application**: Created a modern ticket management web application built with React, JavaScript, TypeScript, and Vite with secure authentication, full CRUD operations, and real-time dashboard statistics. https://ticket-management-web-app.netlify.app/

- **Todo Web Application**: Created a modern, cross-platform todo application built with React Native, Expo, and Convex for real-time synchronization.

OTHER PROFESSIONAL EXPERIENCE

Youth Corper • Intern • Pentagon Engineering Consultants, Ibadan, Nigeria (Dec 2023 – Oct 2024)

• Designed a 25,000 litre overhead steel tank and provided design results including sections,elevations and detailing of structural members for a client through supervision and thorough inspection by superior Engineers.

• Monitored the construction of a school hostel from the foundation level to the first-floor level alongside a team of qualified personnel to verify adherence to engineering plans, specifications, and safety regulations.

• In charge of overseeing the construction processes of a security gate house and assisted in the setting-out and construction of a car parking lot.

• Manually set up and installed heavy duty gym equipment.

• Participated in weekly meetings with clients and senior colleagues to consult and plan projects.

• Engaged in on-site structural corrections, including using vertical levels to correct topography irregularities and implementing modern modes of construction methods.

• Achieved a decent level of practical project management experience, including resolving disputes among workers.

Civil Engineering Intern • Intecon Partnership Ltd, Ibadan, Nigeria (Dec 2021 – Jun 2022)

• Active participation in project meetings, providing valuable insights and feedback to improve project delivery and outcomes.

• Utilised AutoCAD, CADS RC, Prota Structure and Civil 3D software for drafting, designing, detailing and modelling to improve project visualisation and design processes.

• Participated in the design and analysis of public infrastructure projects, including roads.

• Paid attention to senior Civil Engineers to obtain an extensive understanding on manual design of structural members.

Civil Engineering Intern • Bolcon Associates, Ibadan, Nigeria (Sept 2020 – Dec 2020)

• Utilised AutoCAD and Orion software for drafting, modelling and designing, improving project visualisation and design processes.

• Obtained an extensive understanding of best techniques, practices and skills.

EDUCATION

- B.Eng Civil Engineering (Second Class Upper), University of Ilorin, Kwara State, Nigeria
- Senior Secondary School Certificate, Christ the King College, Ibadan, Nigeria

CERTIFICATES

- National Youth Service Corps
- Nigerian Society of Engineers(NSE) Graduate Membership
